

PRESS RELEASE No. 2/2025

The early booking launch offer for the 3rd Cisalpina Classic Race (July 3-4-5, 2025) will close at the end of February. The discounted format has been well received, making the prestigious regularity event in Valle d'Aosta increasingly popular. The race is also valid for the ACI Sport "Grandi Eventi Italian Championship" for Modern GT Cars.

The early booking offer will close on February 28, 2025, after two months of allowing registered teams to benefit from a significant discount on the entry fee for this highly anticipated event, scheduled for early July 2025.

Registrations for the third edition of the classic and modern regularity race opened in January and have sparked great interest, overtaking last year's early booking phase in terms of participation. The increased number of entries confirms the event's growing appeal right from the start of the registration period. Enthusiasm is spreading among three distinct groups of refined automotive enthusiasts.

First, teams with historic collector cars are joining the regularity race with remarkable, historically significant vehicles, including pre-war models. The second group drawn to the Cisalpina Classic Race consists of fans of stunning modern Gran Turismo cars, known for their power and prestige, featuring brands such as Ferrari, Maserati, Porsche, BMW, and Mercedes. Finally, the event is also attracting a third category of participants: those seeking a refined experience of relaxation and fine dining, immersing themselves in an elegant setting while enjoying a leisurely parade with their beloved car.

In the first weekend of July 2025, we will experience three intense days of competition between the Mont Blanc massif and the Gran San Bernardo pass, featuring an exciting series of 100 trials, including classic regularity and average trials.

While the earlier July date is a new feature for the 3rd Cisalpina Classic Race, the event's ACI Sport certifications are a strong confirmation of its prestige: it has been included in the official ACI Sport "Grandi Eventi Italian Championship" for Modern GT Cars and Super Classic ACI Sport for historic cars.

In addition to the significant discount, there is another compelling reason to take advantage of the early booking offer. By popular demand, the organizers of Classic Paddock have once again selected the Hotel Relais Mont Blanc & Spa in La Salle, near Courmayeur, as the official event headquarters, hosting race management, presentations, and the awards ceremony.

As long as availability at this prestigious hotel allows, teams will be accommodated within the event's central venue. Once capacity is reached, drivers and co-drivers will be hosted in other elegant accommodations in the Courmayeur area, ensuring an equally refined experience.
